GENERAL CONDITIONS

Times for judging all horse classes are set out in the Programme on Page 2. Competitors must have their entries on the Show-ground and ready for judging at the times stated, or they will be liable to disqualification.

In all Classes where the age of the rider is a condition, age is calculated as at November 1, this year. Prize-winners must produce satisfactory evidence of age if required by the Association before prize money is paid.

The Committee reserves the right to alter conditions, or the order of events, or cancel events, entirely at its own discretion.

Exhibitors of Horses must have men in attendance to parade all **placed** animals. Exhibitors failing to comply with this regulation will be liable to forfeit their prizes at the discretion of the Committee.

Judges are directed to award prizes only to Horses which they consider **Free from Hereditary Unsoundness**, and must call in the services of the Hon. Veterinary Surgeons in all cases of doubt.

In Classes for Draught Stallions, three years and over, animals will be examined as to freedom from hereditary unsoundness or predisposition to hereditary unsoundness by Government Veterinary Surgeons before going into the judging ring.

A Veterinary Certificate of freedom from hereditary unsoundness, issued in respect of horses exhibited at an earlier Show or Parade held in 1955 will be accepted; such Certificates to be issued by Veterinary Surgeons appointed by the Department of Agriculture.

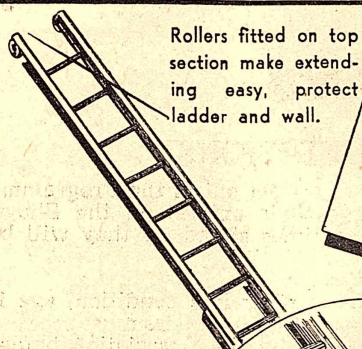

In Classes for Stallions, four years or over, before prize money is paid, the Association may require from the exhibitor evidence that such horse is a breeder.

The same animal cannot be entered in two Classes unless where the contrary is specified.

A Maiden Horse or Pony is one which has not won a first prize at any Christchurch, Timaru, Dunedin, Invercargill, Ashburton, Blenheim, Nelson, or North Island Show by the first day of the Show.

In Classes where measurement is specified, all Horses and Ponies will be measured before entering the judging ring unless a permanent certificate has been granted. Where Horses or Ponies are measured in their shoes, thickness of shoes allowed. Horses or Ponies to be measured must be at the Measuring Stand one hour before judging.

Classes where the sex is not specified are open only to Mares or Geldings.

FULL TIME-TABLE OF EVENTS ON PAGE 2

COMPETITIONS HELD UNDER F.E.I. RULES.

Open to any horse. Ponies 14.2 and under may NOT compete. Wings may not be used unless a fence is less than 15 feet in width. No fence will be less than 3ft. 9in. high. Marking will be according to the official rules of the Federation Equestre Internationale (F.E.I.).

For Classes 4, 11 and 12, entries are limited to persons over 18 years of age.

Judge—Mrs B. Fullerton-Smith (Marton).

Members in Attendance—Messrs Alex. McIntosh, R. B. Johnson
S. M. Wood and J. J. Wyllie.

Marshals—Messrs Peter Liggett (C.T.C.), Brian Collett (C.T.C.).

Class 4—2 p.m.—OPEN SIX BAR EVENT.

First Prize, £20; Second, £12; Third, £6; Fourth, £3.

The International (abridged) Rules for judging Jumping Events are as follows:—

- (1) There are NO marks or faults for style.
- (2) Each fence is judged separately.
- (3) The winner is the competitor making the least number of faults during the round.

(4) Faults are scored as follows:—

(a) Knocking down fence with fore or hind leg	4 faults
(b) Refusals: 1st	3 faults
2nd	6 faults
3rd	Elimination

Refusals are cumulative, and the third refusal in the whole round eliminates the competitor.

Fall of horse or rider, or both 8 faults

- (c) Time: A certain speed is required for the competition. This speed is worked out on a basis of 436 yards per minute (400 metres), according to the length of the course measured on the track that a well-trained horse would take, and a "Time Allowed" for the course will be announced before the competition. This speed is NOT a fast one. The object of the time allowance is to encourage a steady, even rate of progress round the course. There are NO bonus marks for taking less than the "Time Allowed."

For every second or part of a second exceeding

the "Time Allowed" ¼ fault
Exceeding the "Time Limit" Elimination

- (5) Jumping-Off: In the event of equality of faults for first, there will be two jump-offs. The Judge will decide what fences are to be used and whether they are to be raised. Each horse in the jump-off will be timed (as well as marked for fence faults), and in the event of further equalities in the second round, the fastest time wins. A flag will be placed 35 feet in front of the first fence and another flag 50 feet beyond the last fence to define the start and finish of the course.

Competitors may start from where they like, but the time will be taken from the moment the horse's head passes the start flag until it passes the finish flag. No competitors may start until ordered to do so by the Judge. Starting before so ordered, or failing to start within one minute after receiving the order, or being assisted to start will incur elimination from the competition. The competitors are forbidden under penalty of disqualification for the competition, to show their horses the fences.

If requested by the Association an exhibitor must furnish a declaration that the sheep exhibited are eligible, by reason of age, to compete in the class for which they are entered.

Sheep in the Breeding Classes must be unshorn (except those entered in shorn classes).

No Sheep shown in the wool shall have been shorn earlier than August 1st, 1955. Exhibitors of all Sheep shorn out of New Zealand must furnish a certificate showing date of shearing.

Judges will be instructed not to award prizes to Sheep which they consider unfairly shorn or excessively trimmed or excessively coloured; also to disqualify Sheep on which any adhesive substance, string or other material has been used for the purpose of concealing or altering any defect in the fleece or form of the Sheep.

In the Natural Condition Classes Exhibitors will be required to sign the following declaration on the entry form :

I HEREBY DECLARE that the entries made by me in the Natural Condition Sheep Classes comply with the following Conditions:—(1) That the Sheep were shorn evenly and close to the skin ; (2) That the wool has not been trimmed in any way since, except crutching or dagging ; (3) That there has not been any colouring, oiling, or locking except dipping ; (4) That the Sheep have not been housed, rugged, or covered at any time, or in any way.

.....Exhibitor.

N.B.—If the above Declaration has not been completed by the Exhibitor, the exhibits will not be placed before the Judge.

If, in the opinion of the Committee, or not less than three members thereof, any Sheep has rightly been disqualified for being unfairly shorn, such Sheep will be branded with a distinguishing mark, and disqualified for life.

HOW MUCH TIME

Could YOU Give

**To The Management Of Your Neighbour's
Farm or Business?**

When considering the appointment of the TRUSTEE of your WILL remember that a private individual could probably give no more time to looking after YOUR estate than you could give to his.

From every point of view it is wise to appoint a corporate Trustee such as—

THE TRUSTEES EXECUTORS

AND AGENCY COMPANY OF N.Z. LTD.

—and thus make certain that your Estate will be administered with the care and attention it deserves.

THE FARMER'S WILL

On account of the special nature of his estate, it is particularly necessary for a farmer to make a Will while he is in good health. In order to obtain the maximum relief from death duty and perhaps for other reasons, it may be necessary for the trustee to carry on farming.

Experience in Administering Farmers' Estates

The Public Trust Office (established 1872) has had a wide range of experience in the administration of farmers' estates and large numbers of farms — of every kind and in all parts of New Zealand — are being managed by the Office.

Permanent Farm Supervisors

are employed on the staff of the Public Trust Office and these were specially selected for appointment by reason of their extensive practical experience of farming generally.

Beneficiaries Consulted

If it becomes necessary to sell or lease property, it is the policy of the Public Trustee to confer with the members of the family most intimately concerned and to be guided by their wishes.

An invitation is extended to consult:—

T.B. TESTING

It is a condition of entry that all Cattle entered shall have been tested for tuberculosis and such animals have not re-acted. No animal which within six months of the date of the Show has been exhibited with cattle which have not been so tested will be allowed on the Show-ground. Veterinary certificates to be attached to entry forms.

All Cattle entered in the Purebred Classes must be entered, if over one year old, in the recognised Herd Books of the several breeds; if under one year of age must be eligible for entry.

The names of all Purebred Cattle must be stated in the entry form. **This rule will be rigidly adhered to.**

In all Cattle Classes, should the Exhibitor wish, the official milk record of dam will be recorded.

The registered number of the sire and dam of all animals entered in the Purebred Classes must be given at time of entry. Exhibitors are asked to assist the compilation of the Catalogue by seeing that their entry forms are properly filled in. In the case of young cattle where the registered number of the animal is not available the name of sire and dam must be given.

All Cattle must be on the ground and stalled by 9 a.m. on Wednesday, November 7th, ready for judging.

Cattle arriving after 9 a.m. will be liable for disqualification.

Exhibitors of Cattle must have men in attendance to parade all **placed** animals in the Grand Parade. Exhibitors failing to comply with this regulation will be liable to forfeit their prizes at the discretion of the Committee.

A Parade of **all** Cattle will be held at 1 p.m. on Thursday.

EXHIBITORS ARE REQUESTED THAT LEADERS OF CATTLE IN JUDGING RINGS AND PARADES SHOULD WEAR WHITE COATS.

Exhibitors must state the breeder's name, if known; if not given, the words "breeder unknown" will be inserted in the Catalogue.

The owner of the dam of an animal at the date of mating shall be considered the **breeder**.

The same animal cannot be entered in two Classes unless where the contrary is specified. Exhibits competing in the family and group Classes are also eligible for other Classes.

No cow will be allowed in the judging ring which, in the opinion of the Supervisor, is unduly overstocked with milk.

The attention of Exhibitors is drawn to **The late Prof. R. E. Alexander's Challenge Cup** for Attendants. (See Class 108.)

Supervisor of Cattle Section—Mr F. E. Martyn.

The light, powerful Ferguson Tractor is integrated with a wide range of Ferguson Implements by a system which produces traction and stability without excess built-in weight. Economical to run, simple to handle and maintain, Ferguson tractors and implements are equally useful and economical for ploughing, cultivating, terracing, fencing, draining, hauling and a thousand and one other farming jobs. Implements can be operated by one man—or a boy—from the driver's seat.
